ABOUT US

# About *VP Global Exim*

An India-based merchant export company, headquartered in Gondal, Rajkot (Gujarat), connecting international buyers with trusted Indian manufacturers.

We export industrial minerals, spices, engineering components, ceramic tiles, building materials, sanitary ware and apparel. Alongside standard products, we develop customised engineering solutions from customer drawings, specifications and samples.

We are a merchant exporter, not a broker: we buy the goods, inspect them and sell them under our own name. We are also a brand owner: **VRA**, our range of chrome-plated bath fittings, gives buyers factory-direct pricing and private-label flexibility.

Our objective is not only to export products but to become a long-term sourcing partner, built on integrity, transparency and customer satisfaction.

*A trusted bridge to Indian manufacturing*

### OUR VISION

To become a globally recognised and trusted merchant export company, delivering quality products, innovative sourcing solutions and exceptional service through long-term partnerships.

### OUR MISSION

To provide reliable, cost-effective, high-quality export solutions by partnering with leading Indian manufacturers and delivering products that exceed expectations.

OUR FOUNDING PRINCIPLES

## Truth · Love · Compassion

*The three words beneath our logo are how we do business.*

### Truth

*"Our word is our specification."*

What we quote, test and document is exactly what you receive. If a grade, price or date is not realistic, we tell you before you commit.

### Love

*"We care for every order as our own."*

From the factory floor to the packing line, we treat your goods as our own, and build partnerships that last for years, not one shipment.

### Compassion

*"Your problem becomes our problem."*

We understand the deadlines, budgets and markets you answer to. When something goes wrong, we carry it and solve it with you, never pass it on.

> *International business is built on trust, quality, timely delivery and professional service. Whether you need standard products or tailor-made solutions, we work closely with our manufacturing partners so every order meets your expectations. Together, let's build a stronger global business.*

HOW WE WORK

# Who carries *the risk?*

In export trade, the real test comes when something goes wrong. A sourcing agent introduces you to a factory and steps away. A merchant exporter buys the goods and sells them to you, so the responsibility stays with us.

| | A SOURCING AGENT | VP GLOBAL EXIM |
|---|---|---|
| WHO SELLS TO YOU | A mill you have never visited | VP Global Exim, under our own name |
| HOW THEY EARN | Commission on the introduction, paid either way | Margin on goods we bought; we lose if the lot fails |
| WHO TESTS THE LOT | You do, at destination, after it has sailed | We do, before shipment, with lab and inspection reports |
| IF A LOT FAILS | Your problem: claim against an unknown supplier | We carry the rejected lot and replace it |
| ACROSS PRODUCTS | Separate supplier and shipment for each | Mixed products in one container, one invoice |

## FOUR THINGS WE DO ON EVERY ORDER

01

### SOURCE

Select and vet the right manufacturer for your specification, volume and budget.

02

### INSPECT

In-line and pre-shipment checks, lab tests and photos before the container is closed.

03

### CONSOLIDATE

Combine different products into one container, on one document set.

04

### SHIP

Export packing, documents and freight coordination to your port or door.

05

RANGE 05 · VP-BLD

# Building *Materials*

Fasteners, architectural hardware, construction chemicals, steel fittings and plumbing materials, supplied to the standard your project specifies, with test certificates per lot.

*The parts that hold a building together.*

## PLATE 05 — IN THE RANGE

01
### Fasteners
Class 4.6–12.9, SS A2 / A4

02
### Architectural hardware
Hinges, locks, handles, closers

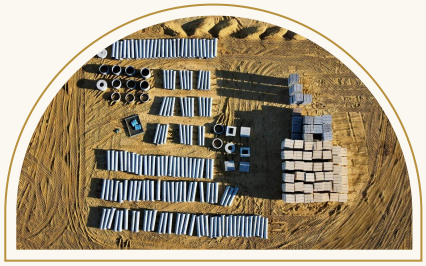

03
### Construction chemicals
Adhesives, grouts, sealants, waterproofing

04
### Steel & fittings
Brackets, clamps, rods, railing parts

05
### Plumbing materials
CPVC, UPVC, PPR, HDPE, valves

06
### Mixed-item loads
Hundreds of SKUs, one container

| Standards | Testing | Finishes | Consolidation |
|---|---|---|---|
| DIN, ISO, ANSI / ASME | Mechanical and chemical per lot | Zinc, HDG, zinc-flake, PVD | Mixed-item containers |

VP-BLD · SPECIFICATION

# Building Materials *Specification*

*Specified by standard, not by looks.*

| LINE | WHAT WE SUPPLY | STANDARDS & MATERIALS | TESTED FOR |
|---|---|---|---|
| Fasteners | Hex bolts, nuts, socket screws, studs, threaded rod, self-drilling and roofing screws, washers, anchors | Class 4.6, 4.8, 8.8, 10.9, 12.9; SS A2 / A4-70/80; DIN, ISO, ANSI / ASME | Tensile, proof load, hardness, coating thickness |
| Architectural hardware | Hinges, mortice and cylindrical locks, handles, closers, panic bars, window and furniture fittings | Stainless steel, solid brass, zinc alloy, aluminium; PVD finishes | Cycle life, salt spray |
| Construction chemicals | Tile adhesives, grouts, sealants, waterproofing, admixtures, repair mortars | Standard and improved classes; TDS and SDS supplied | Shelf life, batch properties |
| Steel & fittings | Brackets, base plates, cleats, beam clamps, threaded rod, turnbuckles, railing and glass fittings | Structural grades; SS 304 / 316; HDG, zinc plated | Mill certificates, weld checks |
| Plumbing | CPVC, UPVC, PPR, PEX, HDPE pipe and fittings; ball, gate, check and PRV valves | Lead-free / DZR brass where required | Hydrostatic pressure per lot |

| CERTIFICATES | FINISHES | MIXED LOADS | LABELLING |
|---|---|---|---|
| Mill and test certificates per lot | Zinc, HDG, zinc-flake, black oxide | Many SKUs in one container | Your part numbers and barcodes |

*Door and window hardware*

*Adhesives and waterproofing*

*Pipe systems and valves*

| FEATURE | ADVANTAGE | BENEFIT |
|---|---|---|
| One supplier for the whole bill of quantities | One container, one invoice, one document set | Lower freight and less admin than five separate suppliers |

EXPORT SERVICES

# From the factory *to your port*

A single partner across the export journey: sourcing, consolidation, packing, documentation and shipping.

*One container, one document set.*

1 **Sourcing**
Right manufacturer for your spec

2 **Consolidation**
Mixed products in one load

3 **Export packing**
Built for sea freight

4 **Documentation**
Prepared end to end

5 **Shipping**
Port-to-port or door-to-door

## How each range is packed

### Bulk & bags
Minerals and spices: 25 / 50 kg PP, jute or paper bags; jumbo FIBC bags; bulk.

### Cartons & pallets
Tiles and sanitary ware: export cartons, pallets, A-frames for slabs.

### Crates
Engineering parts: VCI-wrapped, cell-partitioned, ISPM 15 heat-treated wooden crates.

### Retail-ready
Apparel, spices, VRA: your branded packs, labels, barcodes and pre-packs.

## Delivery terms (Incoterms 2020), in plain words

### EXW
Ex Works

You collect from the factory; you handle export clearance and freight.

### FOB
Free on Board

We deliver, clear and load at the Indian port; you book the ocean freight.

### CFR / CIF
Cost & Freight + Insurance

We pay ocean freight to your port (and insurance under CIF). Most common for new buyers.

### DAP
Delivered at Place

We deliver to your named place; you clear import and pay duties.

**Ports:** shipments normally leave from Mundra or Kandla in Gujarat, close to our Rajkot base. Other Indian ports, LCL (part-container) and air freight are available on request.

HOW TO ORDER

# From your inquiry *to your port*

Buying from India for the first time? This is exactly how an order with VP Global Exim works. One team handles it from start to finish, and you always know who to call.

1 **Send your inquiry**
Email, WhatsApp or website form: product, specification or drawing, quantity, destination.

2 **We review the requirement**
We check the grade, tolerance and your market's import rules, and ask about anything unclear.

3 **Receive our quotation**
Within 24 hours: price, MOQ, lead time, packing, Incoterm and payment terms.

4 **Approve a sample**
Sample, first-article report or lab report sent for approval where needed.

5 **Confirm the order**
Your purchase order and our proforma invoice; payment terms agreed before production.

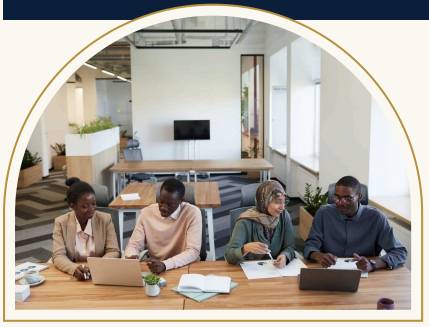

6 **Production & inspection**
We follow production, inspect in-line and before shipment, and share photos and reports.

7 **Packing & loading**
Packed to the agreed method; loading supervised and photographed.

8 **Documents & delivery**
Shipping documents sent to you; we track the vessel until it reaches your port.

## CHECKLIST: WHAT TO SEND FOR A FAST, ACCURATE QUOTE

- Product name, grade or drawing
- Quantity and unit (MT, pcs, m²)
- Packing and labelling needs
- Destination port and country
- Preferred delivery term (FOB, CIF...)
- Required delivery date
- Certificates your market requires
- Target price, if you have one
- Your company name and contact

*Inquiry and quotation*

*Production and inspection*

*Shipment to your port*

TRUTH · LOVE · COMPASSION

*Our word is our specification.*

CONTACT US

# Let's build *together*

Send us a product, a grade or a drawing, a quantity and a destination port. You will have pricing, MOQ and lead time specific to your market within 24 hours.
