ABOUT VP GLOBAL EXIM

An India-based merchant export company, headquartered in Gondal, Rajkot (Gujarat), connecting international buyers with trusted Indian manufacturers.

We export industrial minerals, spices, engineering components, ceramic tiles, building materials, sanitary ware and apparel. Alongside standard products, we develop customised engineering solutions from customer drawings, specifications and samples.

We are a merchant exporter, not a broker: we buy the goods, inspect them and sell them under our own name. We are also a brand owner: **VRA**, our range of chrome-plated bath fittings, gives buyers factory-direct pricing and private-label flexibility.

Our objective is not only to export products but to become a long-term sourcing partner, built on integrity, transparency and customer satisfaction.

OUR VISION

To become a globally recognised and trusted merchant export company, delivering quality products, innovative sourcing solutions and exceptional service through long-term partnerships.

OUR MISSION

To provide reliable, cost-effective, high-quality export solutions by partnering with leading Indian manufacturers and delivering products that exceed expectations.

> *International business is built on trust, quality, timely delivery and professional service. Whether you need standard products or tailor-made solutions, we work closely with our manufacturing partners so every order meets your expectations. Together, let's build a stronger global business.*
>
> MANAGEMENT, VP GLOBAL EXIM

7	45+	6	1	24 h
product ranges	product lines	major export regions	own brand (VRA)	reply to every inquiry

WHO CARRIES THE RISK?

In export trade, the real test comes when something goes wrong. A sourcing agent introduces you to a factory and steps away. A merchant exporter buys the goods and sells them to you, so the responsibility stays with us.

	A SOURCING AGENT	VP GLOBAL EXIM
Who sells to you	A mill you have never visited	**VP Global Exim, under our own name**
How they earn	Commission on the introduction, paid either way	**Margin on goods we bought; we lose if the lot fails**
Who tests the lot	You do, at destination, after it has sailed	**We do, before shipment, with lab and inspection reports**
If a lot fails	Your problem: claim against an unknown supplier	**We carry the rejected lot and replace it**
Across products	Separate supplier and shipment for each	**Mixed products in one container, one invoice**

FOUR THINGS WE DO ON EVERY ORDER

01

SOURCE

Select and vet the right manufacturer for your specification, volume and budget.

02

INSPECT

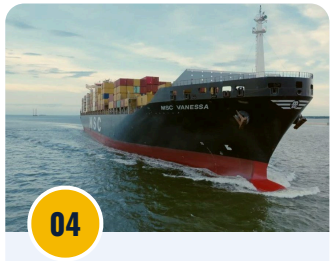

In-line and pre-shipment checks, lab tests and photos before the container is closed.

03

CONSOLIDATE

Combine different products into one container, on one document set.

04

SHIP

Export packing, documents and freight coordination to your port or door.

PART A · OUR RANGES

SEVEN RANGES, ONE SOURCING PARTNER

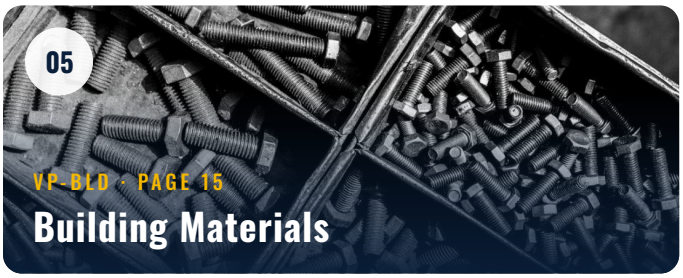

Every range is backed by a vetted manufacturer network, export-grade quality control and full documentation. Products from different ranges can travel together in one container.

INDUSTRIAL MINERALS

Sand and chalk powder from established Indian producers, graded to the mesh and chemistry you specify, and packed for export in bags, jumbo bags or bulk.

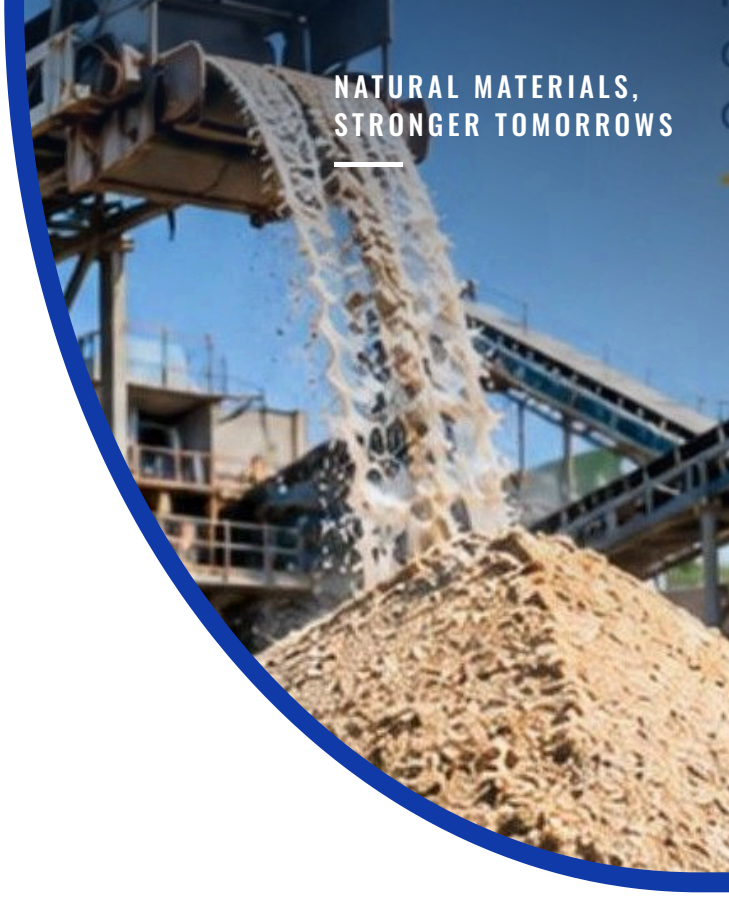

PLATE 01 — IN THE RANGE

01 Construction sand
Concrete, mortar, plaster, blocks

02 Silica sand
Glass, ceramics, filtration

03 Washed sand
Low fines and clay, cleaner mixes

04 Foundry sand
AFS grain size and clay controlled

05 Natural chalk powder
Paints, putty, fillers, paper

06 Micronized & coated chalk
Plastics, PVC, rubber, coatings

HS codes
2505 10 11 · 2505 10 19 · 2509 00 00

Packing
25 / 50 kg bags, jumbo bags, bulk

Testing
Lab report per lot on request

Shipment
Containerised from Gujarat ports

RANGE 01 · VP-MIN

INDUSTRIAL MINERALS

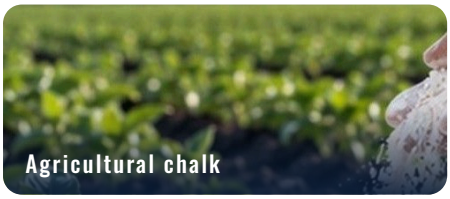

VP-MIN · SPECIFICATION

Product	HS code	Grades & forms	Typical uses
White silica sand	2505 10 11	Washed, graded by mesh / AFS; SiO_2 and Fe_2O_3 to spec	Glass, ceramics, foundry, water filtration
Red sand	2505 10 19	Natural or washed, graded by particle size	Construction, plaster, landscaping, sports surfaces
Construction / washed sand	2505	Graded, washed, low fines	Concrete, mortar, block making, plaster
Foundry sand	2505 10	AFS grain fineness, clay and moisture controlled	Moulds and cores for metal casting
Chalk powder	2509 00 00	Natural, industrial, micronized, coated, filler, agricultural	Paints, putty, PVC, rubber, paper, soil

PARAMETERS WE AGREE ON THE CONTRACT

Particle-size distribution · Mesh / AFS number · SiO_2 content · Fe_2O_3 / iron · $CaCO_3$ content · Whiteness · Moisture · Bulk density · Clay content · Oil absorption · Colour

Agricultural chalk

25 / 50 kg bags

Jumbo bags, containerised

FEATURE / ADVANTAGE / BENEFIT

FEATURE
Grade agreed on paper: mesh, chemistry and moisture

ADVANTAGE
Each lot checked against those numbers before loading

BENEFIT
Material that runs on your line without re-screening

TO QUOTE, SEND US

- ✓ Product and grade
- ✓ Quantity in MT
- ✓ Mesh / particle size
- ✓ Packing type
- ✓ Key chemistry (SiO_2, Fe_2O_3, $CaCO_3$)
- ✓ Destination port

GRADED. CLEANED. DOCUMENTED.

Whole, ground and blended Indian spices bought at the mandi and the mill, sortex-cleaned, lab-tested and shipped under our own name, so the lot is our responsibility, not yours.

PLATE 02 — IN THE RANGE

01 Seed spices
Cumin, coriander, fennel, fenugreek, dill

02 Turmeric
Fingers, bulbs and powder; curcumin to spec

03 Chilli
Teja, Sannam, Byadgi; whole, crushed, powder

04 Tree spices
Black pepper, cardamom, cinnamon, clove

05 Ground spices & blends
Custom grinds and masalas to your formula

06 Cardamom
Green pods, hand-sorted, 6.5–8 mm

HSN
0904 · 0909 · 0910 · 0712

MOQ
From 1 MT per SKU

Testing
NABL lab certificate every lot

Packing
Bulk, retail or private label

SPICES

VP-SPC · SPECIFICATION

The parameters below go on the contract. Crop year and origin belt are stated on every contract; where a season cannot deliver the grade, we say so before you commit.

Product	HSN	Grade marker	Purity	Moisture	Key assay
Cumin	0909 31	Singapore / Europe	99–99.5%	8–9% max	Volatile oil 2.5–4.5%
Coriander	0909 21	Eagle / Single parrot	99% min	9% max	Volatile oil 0.2–0.5%
Turmeric	0910 30 10	Finger / bulb, polished	Foreign matter 1% max	10–12% max	Curcumin 1–5%
Chilli	0904 21 10	Teja · Sannam · Byadgi	Admixture 1% max	12–14% max	ASTA 30–130 · SHU 10k–100k
Black pepper	0904 11	MG1 · TGSEB · TGEB	Light berries 2% max	11–12% max	Piperine 4–9% · 500 g/l
Cardamom	0908 31	AGEB · MG1 bold	6.5–8 mm	10–12% max	Volatile oil 4% min

Sortex cleaned
Destoning, gravity, magnetic and colour sorting

Steam sterilised
Microbial reduction on request

NABL lab tested
Pesticides, aflatoxin, micro, heavy metals

Packed for the voyage
Bulk, barrier, retail or private label

FEATURE / ADVANTAGE / BENEFIT

FEATURE
Grade, crop year and origin written into the contract

ADVANTAGE
Every lot tested by a NABL-accredited lab before it ships

BENEFIT
No surprises at destination testing: a failed lot is our loss, not yours

TO QUOTE, SEND US

- ✓ Spice and form (whole / ground / blend)
- ✓ Grade or key assay
- ✓ Quantity per SKU
- ✓ Packing and labelling
- ✓ Destination and its residue limits
- ✓ Sterilisation needed?

MADE TO YOUR DRAWING. MEASURED.

Machined parts, castings, forgings, fabrications and assemblies from the Rajkot engineering cluster, bought, inspected and shipped under our own name, with the inspection data to prove it.

PLATE 03 — IN THE RANGE

01 CNC machined parts
Held to ±0.01 mm on critical sizes

02 Investment castings
CF8, CF8M, WCB, SS 304 / 316

03 Sand & shell castings
Grey and SG iron, up to 500 kg

04 Forgings
Closed die, 0.5–60 kg, heat treated

05 Sheet metal & fabrication
Laser cut, bent, welded, coated

06 Assemblies & kits
Built to your BOM, function tested

Tolerance
±0.01 mm critical, ±0.05 general

Certificates
EN 10204 3.1, FAI, CMM, PPAP

Quote
In 24 h from PDF, DWG or STEP

Inspection
In-process and pre-shipment

ENGINEERING COMPONENTS

VP-ENG · CASTINGS & FORGINGS

CASTINGS · VP-ENG-CST

Process	Typical weight	Tolerance (ISO 8062)	Surface Ra	Typical grades
Investment casting	10 g – 25 kg	CT4 – CT7	1.6 – 6.3 µm	CF8, CF8M, WCB, SS 304 / 316
Shell mould	0.5 – 60 kg	CT7 – CT9	1.6 – 3.2 µm	FG 200 / 260, SG iron
Green sand casting	1 – 500 kg	CT9 – CT13	6.3 – 25 µm	GGG 40 / 50, FG 200 – 300
Gravity die (Al)	50 g – 30 kg	CT7 – CT9	3.2 – 12.5 µm	LM6, LM25, A356, ADC12

FORGINGS · VP-ENG-FRG

Weight range
0.5 kg to 60 kg net per piece, closed die; open-die and upset on request

Materials
C45, SAE 1045, EN8, EN19, EN24, 42CrMo4 · SS 304 / 316

Presses & hammers
250 T to 1,600 T presses; 1 T to 5 T hammers

Heat treatment
Normalising, quench and temper; hardness to your band

Testing
Spectro, UT, MPI, dye penetrant

Heat treatment
Anneal, normalise, solution, T6

Pressure test
Hydro to specification

Standards
ASTM, DIN, EN, IS equivalents

Valve bodies

Pump casings

Forged flanges

FEATURE / ADVANTAGE / BENEFIT

FEATURE
Foundry, forge and machine shop inside the same cluster

ADVANTAGE
Defects are caught at first machining, not at your goods-in

BENEFIT
A finished component delivered, not a rough part to route onward

RANGE 03 · VP-ENG

ENGINEERING COMPONENTS

VP-ENG · MACHINING, FABRICATION & FASTENERS

CNC MACHINING · VP-ENG-MCH

- CNC turning, VMC / HMC milling, mill-turn, grinding, EDM
- ±0.05 mm general; ±0.01 mm on critical dimensions
- EN8, EN19, EN24 · SS 304 / 316 / 410 · Al 6061 / 6082 · brass
- Ra 0.8–3.2 µm as machined; finer by grinding or lapping

SHEET METAL & FABRICATION

- Fibre laser 0.5–20 mm, CNC turret punching, plasma
- CNC press-brake bending, rolling, deep drawing
- MIG, TIG, spot and stud welding with fixtures
- Powder coat to RAL, galvanising, plating, passivation

FASTENERS & TURNED PARTS

- Grade 4.6 to 12.9; stainless A2 / A4
- DIN, ISO and ANSI / ASME threads
- Zinc, HDG, zinc-flake, black oxide finishes
- Bushes, sleeves and special parts to drawing

ASSEMBLIES & OEM KITS

- Built to your BOM and assembly drawing
- Calibrated torque tools with records
- Leak, functional and cycle testing
- Serial numbering and full traceability

Document	What it proves	When you get it
First-article report (FAI)	Every drawing dimension measured on the first parts	Before batch production
CMM report	Critical dimensions and geometry measured by coordinate machine	With samples and per batch
EN 10204 3.1 certificate	Material chemistry and mechanical properties, traceable to heat	With every shipment
PPAP (on request)	Process capability and control plan for OEM programmes	At part approval

FEATURE / ADVANTAGE / BENEFIT

FEATURE
Tolerances to ±0.01 mm with CMM data and 3.1 certificates

ADVANTAGE
Parts drop straight into your assembly, the first time

BENEFIT
No line stoppages, no rework bills, no emergency air freight

TO QUOTE, SEND US

- ✓ Drawing (PDF / DWG / STEP) or a sample
- ✓ Material grade and heat treatment
- ✓ Quantity and annual volume
- ✓ Finish / coating
- ✓ Certificates required
- ✓ Destination port

TILES FROM MORBI, INDIA

Vitrified, porcelain, ceramic wall, large-format and outdoor tiles from Morbi, India's ceramic capital, selected for the traffic and installation they are going into, and packed to arrive unbroken.

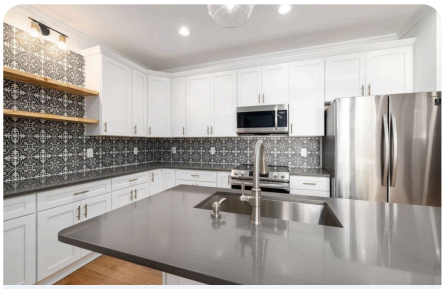

PLATE 04 — IN THE RANGE

01 Vitrified tiles
Double charge, full body, GVT, PGVT

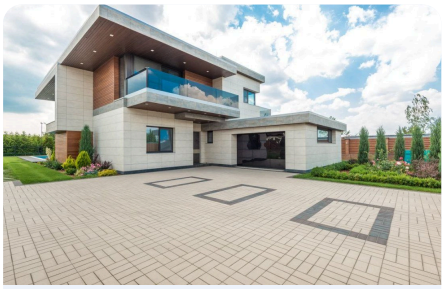

02 Porcelain tiles
Matt, gloss, lappato, structured

03 Ceramic wall tiles
Kitchen and bathroom wall ranges

04 Large-format slabs
800×1600 mm to 1200×2400 mm

05 Outdoor & parking
Anti-skid, 20 mm pavers, frost-resistant

06 Custom & private label
Your designs, branding and cartons

MOQ
One 20 ft container

Lead time
Approx. 20–40 days

Testing
ISO 10545 reports on request

Mixed loads
Several designs per container

RANGE 04 · VP-TIL

TILES

VP-TIL · SPECIFICATION

Range	Sizes / formats	Thickness	Finishes	MOQ	Lead time
Vitrified	600×600 to 800×1600, 900×1800, 1200×1200, planks	8.5–10.5 mm; 12 mm+	Double charge, full body, GVT, PGVT	One 20 ft	20–35 days
Porcelain	300×600 to 1200×1200, 800×1600, mosaics	5–6 mm panels; 8–12 mm; 20 mm pavers	Matt, satin, gloss, polished, lappato, anti-skid	One 20 ft	20–35 days
Ceramic wall	300×450, 300×600, 250×400, 200×300, subway	6–9 mm	Gloss, matt, satin, textured, relief	One 20 ft (15–25 designs)	20–30 days
Large slabs	800×1600, 900×1800, 1200×2400 and larger	9 mm; 12 mm+ worktops	Matt, polished, satin, lappato	One 20 ft; trials consolidated	25–40 days
Outdoor / parking	300×300 to 800×800, planks, pool profiles	Heavy-duty, 20 mm pavers	Anti-skid, structured	One 20 ft	20–35 days

Water absorption
Below 0.5%; under 0.1% full body

Rectified edges
For joints down to 2 mm

ISO 10545 tests
Strength, abrasion, slip, frost

Export packing
Cartons, pallets, A-frames, ISPM 15

Coordinated wall ranges

Book-matched slabs

Palletised and containerised

FEATURE / ADVANTAGE / BENEFIT

FEATURE
Shade, size and batch checked at the Morbi plant

ADVANTAGE
Each design shipped from a single batch, with spare boxes

BENEFIT
Floors that match, laid without lippage or shade mismatch

TO QUOTE, SEND US

- ✓ Range and size
- ✓ Finish and design (photo or code)
- ✓ Quantity in m² or containers
- ✓ Packing / branding needs
- ✓ Destination port
- ✓ Required delivery date

RANGE 05 · VP-BLD

BUILDING MATERIALS

Fasteners, architectural hardware, construction chemicals, steel fittings and plumbing materials, supplied to the standard your project specifies, with test certificates per lot.

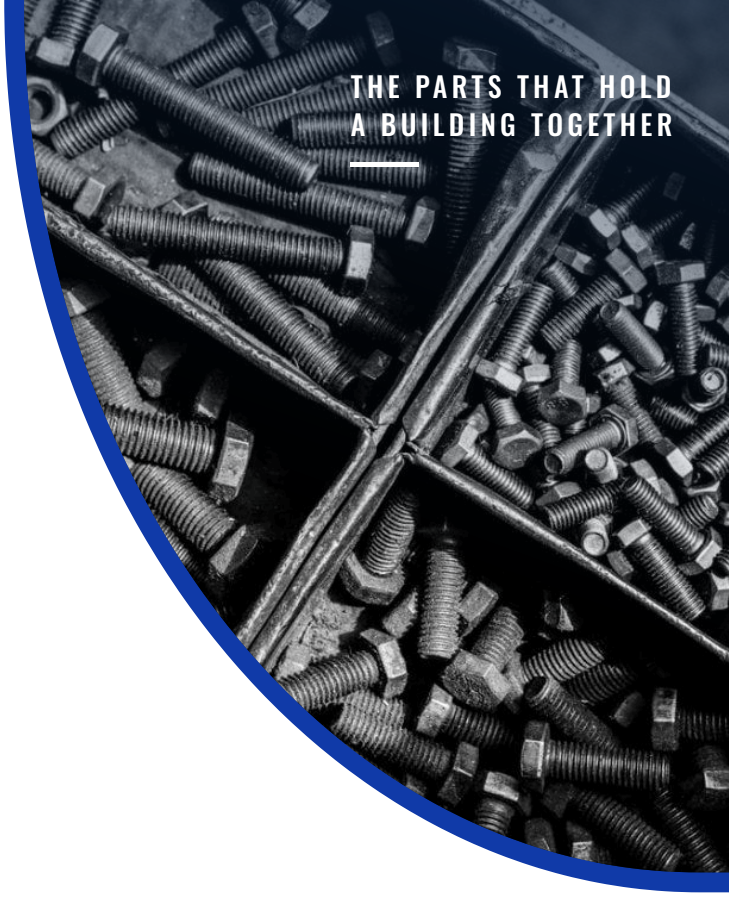

PLATE 05 — IN THE RANGE

01 Fasteners
Class 4.6–12.9, SS A2 / A4

02 Architectural hardware
Hinges, locks, handles, closers

03 Construction chemicals
Adhesives, grouts, sealants, waterproofing

04 Steel & fittings
Brackets, clamps, rods, railing parts

05 Plumbing materials
CPVC, UPVC, PPR, HDPE, valves

06 Mixed-item loads
Hundreds of SKUs, one container

Standards
DIN, ISO, ANSI / ASME

Testing
Mechanical and chemical per lot

Finishes
Zinc, HDG, zinc-flake, PVD

Consolidation
Mixed-item containers

RANGE 05 · VP-BLD

BUILDING MATERIALS

VP-BLD · SPECIFICATION

Line	What we supply	Standards & materials	Tested for
Fasteners	Hex bolts, nuts, socket screws, studs, threaded rod, self-drilling and roofing screws, washers, anchors	Class 4.6, 4.8, 8.8, 10.9, 12.9; SS A2 / A4-70/80; DIN, ISO, ANSI / ASME	Tensile, proof load, hardness, coating thickness
Architectural hardware	Hinges, mortice and cylindrical locks, handles, closers, panic bars, window and furniture fittings	Stainless steel, solid brass, zinc alloy, aluminium; PVD finishes	Cycle life, salt spray
Construction chemicals	Tile adhesives, grouts, sealants, waterproofing, admixtures, repair mortars	Standard and improved classes; TDS and SDS supplied	Shelf life, batch properties
Steel & fittings	Brackets, base plates, cleats, beam clamps, threaded rod, turnbuckles, railing and glass fittings	Structural grades; SS 304 / 316; HDG, zinc plated	Mill certificates, weld checks
Plumbing	CPVC, UPVC, PPR, PEX, HDPE pipe and fittings; ball, gate, check and PRV valves	Lead-free / DZR brass where required	Hydrostatic pressure per lot

Certificates
Mill and test certificates per lot

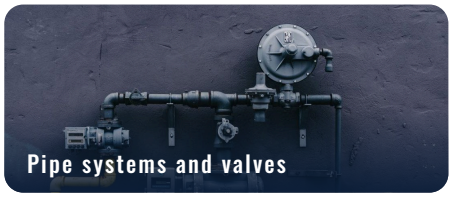

Finishes

SANITARY WARE & OUR VRA BRAND

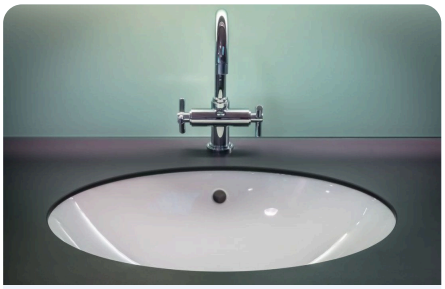

Faucets, sanitary fixtures, bathroom accessories and PTMT fittings, plus VRA, our own brand of chrome-plated bath fittings: factory-direct pricing with private-label flexibility.

PLATE 06 — IN THE RANGE

01 Faucets & mixers
Brass bodies, ceramic cartridges

02 Sanitary fixtures
Basins, WCs, cisterns, urinals

03 Bathroom accessories
Showers, rails, holders, grab bars

04 PTMT fittings
Lead-free, corrosion-free polymer taps

05 VRA · FLT collection
13 SKUs, 20 mm cartridge

06 VRA · Ovel collection
15 SKUs, 15 mm cartridge

Own brand
VRA: 6 collections, 108 SKUs

Warranty
7-year cartridge warranty (VRA)

Testing
100% pressure and leak tested

Private label
Your brand, cartons, finish

RANGE 06 · VP-SAN

SANITARY WARE

VP-SAN · SPECIFICATION

Line	Range	Material & quality	Finishes
Faucets & mixers	Basin, bath, shower, kitchen, concealed and sensor taps	Forged / cast brass, ceramic disc cartridges cycle-tested to ~200,000 operations	Chrome, brushed nickel, matt black, gold, rose gold, PVD
Sanitary fixtures	Basins, one- and two-piece WCs, wall-hung pans, cisterns, urinals	Vitreous china, high-gloss glaze; flush-tested	White and colours; individually crated
Bathroom accessories	Rain and hand showers, rails, holders, shelves, grab bars	SS 304 / 316, brass, zinc alloy, ABS	Matched to the faucet suite
PTMT fittings	Bib and pillar taps, mixers, showers, health faucets	Lead-free polymer; about 1/5 the weight of brass	Colours and chrome-look

- ✓ Target price and delivery date

PART C · QUALITY

QUALITY & CERTIFICATES

Because we buy the goods and sell them under our own name, a rejected batch is our loss before it is your problem.

FIVE QUALITY GATES ON EVERY ORDER

01
Pre-order review
Specification, drawing, grade and destination rules confirmed before we quote.

02
Supplier selection
Manufacturer chosen and checked for the product, grade and volume.

03
In-line inspection
Checked during production, while a problem can still be corrected.

04
Lab / dimensional test
Lab analysis, CMM or performance tests against the agreed numbers.

05
Pre-shipment check
Final inspection, photos and loading supervision before the container is sealed.

WHAT ARRIVES WITH EACH RANGE

Range	Quality documents you receive
Industrial minerals	Chemical analysis and particle-size report per lot (on request), packing list with lot numbers
Spices	NABL lab certificate of analysis per lot: pesticides, aflatoxin, microbiology, heavy metals, physical
Engineering	EN 10204 3.1 material certificate, first-article and CMM reports, NDT reports, PPAP on request
Tiles	ISO 10545 test reports on request; batch, shade and size marked on every carton
Building materials	Mill / mechanical test certificates, coating thickness and pressure-test records per lot
Sanitary ware	Pressure and leak test records; cartridge cycle-test data; flush-test results
Apparel	AQL 2.5 final inspection report with photos and measurements

Dimensional checks

Lot sampling

Pressure-tested fittings

PART C · EXPORT SERVICES

FROM THE FACTORY TO YOUR PORT

A single partner across the export journey: sourcing, consolidation, packing, documentation and shipping.

Sourcing
Right manufacturer for your spec

Consolidation
Mixed products in one load

Export packing
Built for sea freight

Documentation
Prepared end to end

Shipping
Port-to-port or door-to-door

HOW EACH RANGE IS PACKED

Bulk & bags
Minerals and spices: 25 / 50 kg PP, jute or paper bags; jumbo FIBC bags; bulk.

Cartons & pallets
Tiles and sanitary ware: export cartons, pallets, A-frames for slabs.

Crates
Engineering parts: VCI-wrapped, cell-partitioned, ISPM 15 heat-treated wooden crates.

Retail-ready
Apparel, spices, VRA: your branded packs, labels, barcodes and pre-packs.

DELIVERY TERMS (INCOTERMS 2020), IN PLAIN WORDS

EXW
Ex Works
You collect from the factory; you handle export clearance and freight.

FOB
Free on Board
We deliver, clear and load at the Indian port; you book the ocean freight.

CFR / CIF
Cost & Freight / + Insurance
We pay ocean freight to your port (and insurance under CIF). Most common for new buyers.

DAP
Delivered at Place
We deliver to your named place; you clear import and pay duties.

Ports: shipments normally leave from Mundra or Kandla in Gujarat, close to our Rajkot base. Other Indian ports, LCL (part-container) and air freight are available on request.

PART C · HOW TO ORDER

FROM YOUR INQUIRY TO YOUR PORT

Buying from India for the first time? This is exactly how an order with VP Global Exim works. One team handles it from start to finish, and you always know who to call.

1 Send your inquiry
Email, WhatsApp or website form: product, specification or drawing, quantity, destination.

2 We review the requirement
We check the grade, tolerance and your market's import rules, and ask about anything unclear.

3 Receive our quotation
Within 24 hours: price, MOQ, lead time, packing, Incoterm and payment terms.

4 Approve a sample
Sample, first-article report or lab report sent for approval where needed.

5 Confirm the order
Your purchase order and our proforma invoice; payment terms agreed before production.

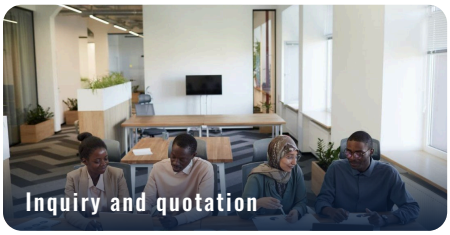

6 Production & inspection
We follow production, inspect in-line and before shipment, and share photos and reports.

7 Packing & loading
Packed to the agreed method; loading supervised and photographed.

8 Documents & delivery
Shipping documents sent to you; we track the vessel until it reaches your port.

✓ CHECKLIST: WHAT TO SEND FOR A FAST, ACCURATE QUOTE

- ✓ Product name, grade or drawing
- ✓ Quantity and unit (MT, pcs, m²)
- ✓ Packing and labelling needs
- ✓ Destination port and country
- ✓ Preferred delivery term (FOB, CIF...)
- ✓ Required delivery date
- ✓ Certificates your market requires
- ✓ Target price, if you have one
- ✓ Your company name and contact

Inquiry and quotation

Production and inspection

Shipment to your port

PAPERWORK THAT CLEARS

DOCUMENTS THAT TRAVEL WITH YOUR SHIPMENT

- ✓ Commercial invoice
- ✓ Bill of lading / airway bill
- ✓ Test, analysis or inspection certificates
- ✓ Fumigation certificate (where required)
- ✓ Packing list
- ✓ Certificate of origin (preferential where applicable)
- ✓ Phytosanitary certificate (spices, agri products)
- ✓ Insurance certificate (CIF shipments)

FREQUENTLY ASKED QUESTIONS

What is your minimum order?

It depends on the range: from 1 MT per spice SKU, one 20 ft container for tiles, 300–500 pieces per style for apparel. Engineering parts are quoted by drawing and volume. Trial lots can often be consolidated with other cargo.

Can I get a sample before ordering?

Yes. We send samples, first-article reports or lab reports for approval before bulk production. Courier cost is agreed in advance.

How fast will I get a price?

We reply to every inquiry within 24 hours, with pricing, MOQ and lead time specific to your market.

What payment terms do you accept?

Agreed per order before production, commonly advance by bank transfer (TT) or a Letter of Credit at sight for larger orders.

Can I combine different products?

Yes. Mixed containers are one of our strengths: for example tiles, sanitary ware and hardware, or several spices, in one load.

Can you pack under my brand?

Yes: private label is available for spices, apparel, sanitary ware (VRA tooling), tiles and more.

What if the goods do not match the contract?

We stand behind the agreed specification. Because we test before shipment, problems are caught early; if a lot fails, we carry it, not you.

Do you handle import clearance in my country?

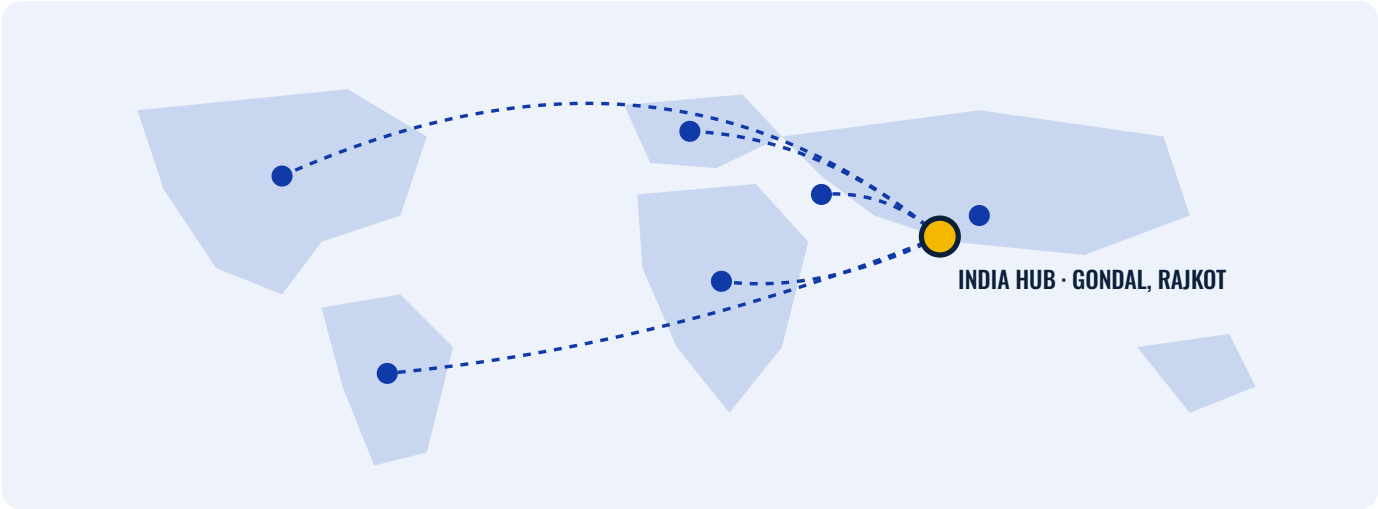

We provide every export document you need. Import clearance, duties and licences are handled by you or your agent, unless we agree DAP delivery.

PART C · GLOBAL MARKETS

SIX MAJOR MARKETS, SHIPPING WORLDWIDE

We ship to buyers in any market from our India hub, and tailor pricing, certification and logistics to each region.

01 LATIN AMERICA

Who buys: Import distributors and retail chains

What they need: Competitive pricing, flexible MOQs, reliable logistics to regional ports, Spanish / Portuguese-friendly support

02 AFRICA

Who buys: Wholesalers and construction-supply importers

What they need: Bulk pricing, container loads, payment flexibility, consistent supply

03 MIDDLE EAST

Who buys: Trading houses and project procurement

What they need: Certifications, large volumes, on-time delivery, formal documentation

04 EUROPE

Who buys: Retail buyers and OEM / engineering teams

What they need: Compliance certifications, precise technical specifications

05 SOUTH ASIA

Who buys: Regional distributors and private-label buyers

What they need: Private-label capability, clear pricing tiers, fast sampling

06 NORTH AMERICA

Who buys: Importers and OEM buyers

What they need: Documented QA, customisation, responsive English communication

PART C · WHY CHOOSE US

WHY BUYERS WORK WITH US

Six reasons importers trust VP Global Exim with their sourcing from India.

We own the goods 01

We buy, inspect and sell under our own name: one invoice, one contract, one counterparty.

Vetted supplier network 02

Manufacturers selected for consistent quality and supply continuity.

Competitive landed cost 03

Direct sourcing and consolidation, not a stack of intermediary margins.

Timely delivery 04

Disciplined production planning and freight coordination.

Answered within 24 hours 05

Responsive English-language communication across time zones.

We will say no 06

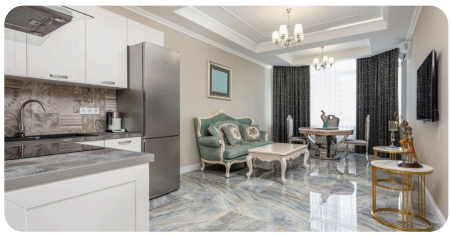

If a tolerance, volume or price is not realistic, we tell you before production starts.

OUR CORE VALUES

Integrity | Customer Commitment | Quality Excellence | Reliability | Innovation | Teamwork | Continuous Improvement

Truth – Love – Compassion

CONTACT US

LET'S BUILD TOGETHER

Send us a product, a grade or a drawing, a quantity and a destination port. You will have pricing, MOQ and lead time specific to your market within 24 hours.
