ABOUT US

About *VP Global Exim*

An India-based merchant export company, headquartered in Gondal, Rajkot (Gujarat), connecting international buyers with trusted Indian manufacturers.

We export industrial minerals, spices, engineering components, ceramic tiles, building materials, sanitary ware and apparel. Alongside standard products, we develop customised engineering solutions from customer drawings, specifications and samples.

We are a merchant exporter, not a broker: we buy the goods, inspect them and sell them under our own name. We are also a brand owner: **VRA**, our range of chrome-plated bath fittings, gives buyers factory-direct pricing and private-label flexibility.

Our objective is not only to export products but to become a long-term sourcing partner, built on integrity, transparency and customer satisfaction.

A trusted bridge to Indian manufacturing

OUR VISION

To become a globally recognised and trusted merchant export company, delivering quality products, innovative sourcing solutions and exceptional service through long-term partnerships.

OUR MISSION

To provide reliable, cost-effective, high-quality export solutions by partnering with leading Indian manufacturers and delivering products that exceed expectations.

OUR FOUNDING PRINCIPLES

Truth · Love · Compassion

The three words beneath our logo are how we do business.

Truth

"Our word is our specification."

What we quote, test and document is exactly what you receive. If a grade, price or date is not realistic, we tell you before you commit.

Love

"We care for every order as our own."

From the factory floor to the packing line, we treat your goods as our own, and build partnerships that last for years, not one shipment.

Compassion

"Your problem becomes our problem."

We understand the deadlines, budgets and markets you answer to. When something goes wrong, we carry it and solve it with you, never pass it on.

> *International business is built on trust, quality, timely delivery and professional service. Whether you need standard products or tailor-made solutions, we work closely with our manufacturing partners so every order meets your expectations. Together, let's build a stronger global business.*

HOW WE WORK

Who carries *the risk?*

In export trade, the real test comes when something goes wrong. A sourcing agent introduces you to a factory and steps away. A merchant exporter buys the goods and sells them to you, so the responsibility stays with us.

	A SOURCING AGENT	VP GLOBAL EXIM
WHO SELLS TO YOU	A mill you have never visited	VP Global Exim, under our own name
HOW THEY EARN	Commission on the introduction, paid either way	Margin on goods we bought; we lose if the lot fails
WHO TESTS THE LOT	You do, at destination, after it has sailed	We do, before shipment, with lab and inspection reports
IF A LOT FAILS	Your problem: claim against an unknown supplier	We carry the rejected lot and replace it
ACROSS PRODUCTS	Separate supplier and shipment for each	Mixed products in one container, one invoice

FOUR THINGS WE DO ON EVERY ORDER

01

SOURCE

Select and vet the right manufacturer for your specification, volume and budget.

02

INSPECT

In-line and pre-shipment checks, lab tests and photos before the container is closed.

03

CONSOLIDATE

Combine different products into one container, on one document set.

04

SHIP

Export packing, documents and freight coordination to your port or door.

02

RANGE 02 · VP-SPC

Graded. Cleaned. *Documented.*

Whole, ground and blended Indian spices bought at the mandi and the mill, sortex-cleaned, lab-tested and shipped under our own name, so the lot is our responsibility, not yours.

Trusted spices, global markets.

PLATE 02 — IN THE RANGE

01
Seed spices
Cumin, coriander, fennel, fenugreek, dill

02
Turmeric
Fingers, bulbs and powder; curcumin to spec

03
Chilli
Teja, Sannam, Byadgi; whole, crushed, powder

04
Tree spices
Black pepper, cardamom, cinnamon, clove

05
Ground spices & blends
Custom grinds and masalas to your formula

06
Cardamom
Green pods, hand-sorted, 6.5–8 mm

HSN	MOQ	Testing	Packing
0904 · 0909 · 0910 · 0712	From 1 MT per SKU	NABL lab certificate every lot	Bulk, retail or private label

VP-SPC · INDIA, THE SPICE COUNTRY

India, the home *of the spice trade*

India is the world's largest exporter of spices. Our buying desk sits inside that supply chain, at the origin markets, not alongside it.

Trusted spices, global markets.

1.8 million t	US$ 4.72 bn	1 MT
Spices exported by India in FY 2024-25 (Spices Board of India)	Record spice export value, FY 2024-25	Minimum per SKU; mixed-SKU containers on one invoice

OUR SUB-RANGES AND ORIGINS

SUB-RANGE	KEY PRODUCTS	ORIGIN
Seed spices	Cumin (jeera), fennel (saunf), fenugreek (methi), coriander, dill seed; others on request	Unjha (Gujarat), Rajasthan, Madhya Pradesh
Turmeric HSN 0910 30 10	Fingers, bulbs and powder; polished or unpolished; curcumin to specification	Erode, Nizamabad, Sangli
Chilli HSN 0904 21 10	Whole red chilli, crushed, powder and flakes; Teja, Sannam, Byadgi; custom ASTA grades	Guntur (Andhra Pradesh), Byadgi (Karnataka), Warangal
Tree spices	Black pepper, cardamom, cinnamon, clove, nutmeg & mace, bay leaf	Kerala, Karnataka, Tamil Nadu, North-East India
Ground spices & blends	Chilli, turmeric, coriander and cumin powders; custom blends and masalas	Cleaned, sorted, sterilised on request, ground to your mesh
Organic	Organic cumin, turmeric, chilli, coriander and other certified spices	NPOP, USDA NOP or EU organic, as your market requires

WHAT EVERY LOT INCLUDES

- Whole, ground, cracked, flaked or blended
- Sortex-cleaned to 99–99.9% purity
- Steam sterilisation on request
- NABL certificate of analysis
- One invoice, one bill of lading

VP-SPC · DEHYDRATED ONION & GARLIC

Natural flavour, *global reach*

Dehydrated onion and garlic in powder, granules, minced and flakes, hygienically processed from Indian harvests and packed for food manufacturers, importers and private labels.

From Indian fields to global markets.

Onion powder

HSN 0712 20 00

Dehydrated, white and pink onion powder; granulated and minced onion.

Onion flakes

HSN 0712 20 00

Uniform dehydrated flakes; 100% natural, no additives.

Garlic powder

HSN 0712 90 20

Dehydrated, white and roasted garlic powder; granulated and minced garlic.

Garlic flakes

HSN 0712 90 30

Uniform dehydrated flakes with consistent taste; 100% natural.

ORIGIN

Growing belts	Gujarat · Madhya Pradesh · Rajasthan · Maharashtra
Forms	Powder · granules · minced · flakes; others on request
Varieties	White, red / pink and roasted, by product

WHY BUYERS CHOOSE IT

Natural	Pure, with no additives
Consistent	Hygienically processed; uniform particle size and taste
Trusted	Supplied to multiple export markets

VP-SPC · SPECIFICATION

Spices *Specification*

Nothing ships until it passes.

The parameters below go on the contract. Crop year and origin belt are stated on every contract; where a season cannot deliver the grade, we say so before you commit.

PRODUCT	HSN	GRADE MARKER	PURITY	MOISTURE	KEY ASSAY
Cumin	0909 31	Singapore / Europe	99–99.5%	8–9% max	Volatile oil 2.5–4.5%
Coriander	0909 21	Eagle / Single parrot	99% min	9% max	Volatile oil 0.2–0.5%
Turmeric	0910 30 10	Finger / bulb, polished	Foreign matter 1% max	10–12% max	Curcumin 1–5%
Chilli	0904 21 10	Teja · Sannam · Byadgi	Admixture 1% max	12–14% max	ASTA 30–130 · SHU 10k–100k
Black pepper	0904 11	MG1 · TGSEB · TGEB	Light berries 2% max	11–12% max	Piperine 4–9% · 500 g/l
Cardamom	0908 31	AGEB · MG1 bold	6.5–8 mm	10–12% max	Volatile oil 4% min

SORTEX CLEANED
Destoning, gravity, magnetic and colour sorting

STEAM STERILISED
Microbial reduction on request

NABL LAB TESTED
Pesticides, aflatoxin, micro, heavy metals

PACKED FOR THE VOYAGE
Bulk, barrier, retail or private label

Seed spices

Blends & masalas

Garbled black pepper

FEATURE
Grade, crop year and origin written into the contract

ADVANTAGE
Every lot tested by a NABL-accredited lab before it ships

BENEFIT
No surprises at destination testing: a failed lot is our loss, not yours

To quote, *send us*

- Spice and form (whole / ground / blend)
- Quantity per SKU
- Destination and its residue limits
- Grade or key assay
- Packing and labelling
- Sterilisation needed?

VP-SPC · PROCESSING & LABORATORY

From raw spice *to export stock*

Raw spice from the mandi is not export stock. It becomes export stock through these four machines, and it ships only after a NABL-accredited laboratory has passed it.

Nothing ships until it passes.

FOUR PROCESSING STEPS

01 Cleaning
De-stoner, gravity separator, magnetic trap and air aspiration remove soil, stalk, metal and light chaff.

02 Sortex grading
Optical colour sorting removes discoloured and immature seed to reach 99.5% and 99.9% grades.

03 Steam sterilisation
Saturated steam at 120 °C reduces total plate count and Salmonella, without ETO or gamma irradiation.

04 Grinding & blending
Milled to your mesh, cryogenically where volatile oil matters, ribbon-blended and metal-detected.

WHAT THE CERTIFICATE OF ANALYSIS COVERS

01 Pesticide residue
Multi-residue GC-MS and LC-MS screen against the EU 0.01 ppm default MRL.

02 Mycotoxins
Aflatoxin B1 and total, ochratoxin A, to the destination limit.

03 Microbiology
Total plate count, yeast and mould, E. coli; Salmonella absent in 25 g.

04 Heavy metals
Lead, cadmium, arsenic and mercury by ICP-MS.

05 Adulterants
Synthetic colour, lead chromate, starch and foreign plant material.

06 Physical & assay
Moisture, ash, acid-insoluble ash, volatile oil, ASTA colour, curcumin, piperine.

VP-SPC · DOCUMENTS, PACKING & PRIVATE LABEL

Packed for *the voyage*

Spice fails in transit for two reasons: moisture and taint. Both are packaging problems, so packing is part of the specification. The full document set is prepared before the container is sealed.

Your brand, the same quality.

DOCUMENTS PER SHIPMENT

Standard	Commercial invoice, packing list, certificate of origin, phytosanitary and health certificates
Analysis	NABL certificate of analysis and multi-residue MRL report against your market's limits
Organic	NPOP, NOP or EU transaction certificate for the specific container
Dietary	Halal and Kosher certificates arranged where required
Treatment	Steam sterilisation record, fumigation certificate, non-irradiation declaration
Loading	Photographic stuffing record, seal number and data-logger record

EXPORT PACKING

Bulk	25 and 50 kg laminated PP or jute, with food-grade liner
Barrier	Vacuum and aluminium-lined packs for ground and volatile lines
Retail	100 g to 1 kg pouches, jars and sachets under your brand
Protection	Desiccant, kraft-paper lining and a humidity data logger in the load
Load	About 13–18 MT per 20 ft by product; about 26 MT typical 40 ft
Pallets	Euro-pallets (1.2 × 1.0 m), shrink-wrapped

PRIVATE LABEL & CONTRACT PACKING

01 Artwork
Print-ready files or design support; barcode, batch and best-before coding.

02 Formats
Stand-up pouches, PET jars, tins, sachets and bulk food-service packs.

03 Compliance
Nutrition panel, allergen and origin statements to your market's rules.

04 Runs
From a single pallet per SKU on standard formats; tooling quoted separately.

EXPORT SERVICES

From the factory *to your port*

A single partner across the export journey: sourcing, consolidation, packing, documentation and shipping.

One container, one document set.

1. **Sourcing** — Right manufacturer for your spec
2. **Consolidation** — Mixed products in one load
3. **Export packing** — Built for sea freight
4. **Documentation** — Prepared end to end
5. **Shipping** — Port-to-port or door-to-door

How each range is packed

Bulk & bags
Minerals and spices: 25 / 50 kg PP, jute or paper bags; jumbo FIBC bags; bulk.

Cartons & pallets
Tiles and sanitary ware: export cartons, pallets, A-frames for slabs.

Crates
Engineering parts: VCI-wrapped, cell-partitioned, ISPM 15 heat-treated wooden crates.

Retail-ready
Apparel, spices, VRA: your branded packs, labels, barcodes and pre-packs.

Delivery terms (Incoterms 2020), in plain words

EXW
Ex Works

You collect from the factory; you handle export clearance and freight.

FOB
Free on Board

We deliver, clear and load at the Indian port; you book the ocean freight.

CFR / CIF
Cost & Freight + Insurance

We pay ocean freight to your port (and insurance under CIF). Most common for new buyers.

DAP
Delivered at Place

We deliver to your named place; you clear import and pay duties.

Ports: shipments normally leave from Mundra or Kandla in Gujarat, close to our Rajkot base. Other Indian ports, LCL (part-container) and air freight are available on request.

HOW TO ORDER

From your inquiry *to your port*

Buying from India for the first time? This is exactly how an order with VP Global Exim works. One team handles it from start to finish, and you always know who to call.

1 Send your inquiry
Email, WhatsApp or website form: product, specification or drawing, quantity, destination.

2 We review the requirement
We check the grade, tolerance and your market's import rules, and ask about anything unclear.

3 Receive our quotation
Within 24 hours: price, MOQ, lead time, packing, Incoterm and payment terms.

4 Approve a sample
Sample, first-article report or lab report sent for approval where needed.

5 Confirm the order
Your purchase order and our proforma invoice; payment terms agreed before production.

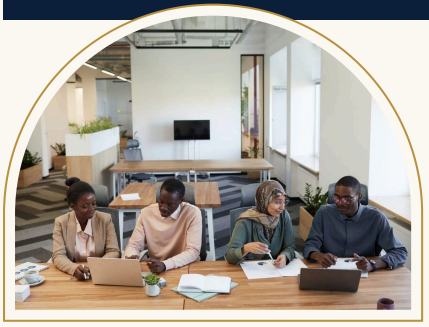

6 Production & inspection
We follow production, inspect in-line and before shipment, and share photos and reports.

7 Packing & loading
Packed to the agreed method; loading supervised and photographed.

8 Documents & delivery
Shipping documents sent to you; we track the vessel until it reaches your port.

CHECKLIST: WHAT TO SEND FOR A FAST, ACCURATE QUOTE

- Product name, grade or drawing
- Quantity and unit (MT, pcs, m²)
- Packing and labelling needs
- Destination port and country
- Preferred delivery term (FOB, CIF...)
- Required delivery date
- Certificates your market requires
- Target price, if you have one
- Your company name and contact

Inquiry and quotation

Production and inspection

Shipment to your port

TRUTH · LOVE · COMPASSION

Our word is our specification.

CONTACT US

Let's build *together*

Send us a product, a grade or a drawing, a quantity and a destination port. You will have pricing, MOQ and lead time specific to your market within 24 hours.
